

SEG 2018

*International Symposium on Energy
Geotechnics*

Invitation

We are glad to announce that during SEG2018 we are launching an “Innovation Hub” featuring an exposition area and a special interactive session dedicated to supporting and promoting the community of inventors and entrepreneurs, active in the greater field of energy geotechnics.

The hub aims to offer a common platform for showcasing innovative technologies to the members of our community and to the wider geo-engineering, geo-science and geotechnics industries. Equipment manufacturers and service providers are invited to demonstrate their expertise and share case stories on how their products and services impact our field and challenge the established practice and execution procedures, as well as quality control, risk prevention, environmental and safety compliances.

FOR INVENTORS & STARTUPS:

Are you an inventor or entrepreneur active in the broad field of energy geotechnics? Do you have an idea, product or service which challenges the established practice?

We would like to invite you to become part of the “**Innovation Hub**” talks, exposition and social events taking place on the occasion of the [International Symposium on Energy Geotechnics 2018](#), September 25th-28th 2018, at the SwissTech Convention Center in Lausanne, Switzerland. Join us and get the chance to connect to some of the leading private and public institutions, active in the research and industrial applications of energy geotechnics.

We offer startups* a free exposition booth and a slot for presenting during a special interactive session for sharing case stories on how their products and services impact and challenge the established practice and execution procedures, as well as quality controls, risk prevention, environmental and safety compliances.

For applying for the Innovation Hub pass please click the [submission tab](#). For more information do not hesitate to contact us at seg2018@epfl.ch.

**free exposition booth is offered to inventors/entrepreneurs who have not yet incorporated their company or did so during the last 3 years. If you are a Small/Medium-size Enterprise and wish to present please contact us at seg2018@epfl.ch*
